

This is a guide of how to delete browsing history, cookies and clear the cache.

Shortcut (works for all browsers): Hold **Control+Shift+Delete**, a new window/tab will pop up, select cookies, cache and browsing/downloads to be cleared. If you do not wish to follow the shortcut follow the steps below, for each browser.

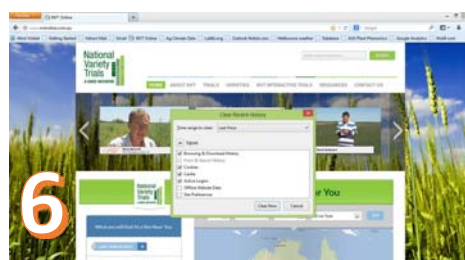

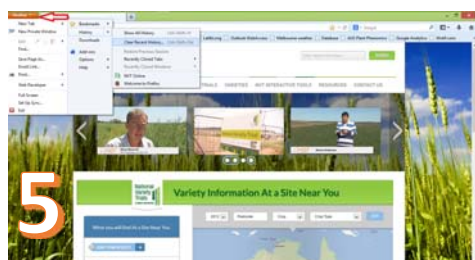

In **Chrome**: Click on the Customise and control Google Chrome button (top right corner), select Tool, than click Clearing Browsing data (Picture 1). A new tab will open (Picture 2), select clear browsing history, delete cookies and other plug-in data, and empty cache. Select the time period: "From the beginning of time" or if you know when you first used the NVT Online website only delete that time period. For example if you used it few days ago, delete for a week long time period. Click Clear browsing data (Picture 2).

In **Internet Explorer**: Click on Tools (top right corner) select Safety, click Delete Browsing History (Picture 3). Select: Temporary internet files and website files, Cookies and website data and History, to be deleted. Click Delete (Picture 4).

In **Mozilla**: Click the Firefox button (top left corner), select History, then click on Clear Recent History (picture 5). A new window will pop up, select Browsing & Download History, Cookies, Cache and Active Logins to be cleared. Click Clear Now (Picture 6).

On an **iPad**: Go to Settings, tap Safari then tap Clear History and then Clear Cookies and Data. When prompted confirm your choice.
